

# ResolveDesk AI — Frequently Asked Questions (FAQ)

## Account Management

### *How do I change my password?*

You can change your password by navigating to User Settings > Security > Change Password. Fill in your current password and define a new one. Remember that passwords must be at least 10 characters long and contain both letters and numbers.

### *Can I delete my account?*

To delete your account permanently, please contact our support team at [support@resolvedesk.ai](mailto:support@resolvedesk.ai). For security reasons, deletion requests must be processed manually by an administrator.

## Workspace & Board Configuration

### *How do I create a new project board?*

To create a new board, click the '+' button in the top navigation panel, select Create Board, enter a project title, and select a visibility level (Private, Shared, or Organization-wide).

### *Can I import tasks from Trello or Jira?*

Yes! ResolveDesk AI supports direct CSV imports or integrations with Jira and Trello. Navigate to Workspace Settings > Integrations, authorize your external provider, and follow the import wizard instructions.

## Integrations

### *How do I set up the Slack integration?*

1. Navigate to Workspace Settings > Integrations.
2. Click Add to Slack next to the Slack logo.
3. Authorize the ResolveDesk bot in your Slack workspace.
4. Set up notifications using commands (e.g. `/resolvedesk subscribe #channel`).

## Advanced FAQ & Workspace Sharing

### *How do I share a workspace board with an external client?*

To share a board externally, navigate to Board Settings > Access Control. Click 'Invite Member', enter the email address of the external client, and set their permission level to 'Viewer' or 'Guest'. Guest users will only have access to that specific board and cannot see the broader workspace directories. Guest limits apply depending on your plan details.

### *How is billing handled for added seats?*

If you add new members to your workspace mid-cycle, ResolveDesk will dynamically calculate the proration amount for the remaining portion of that billing month. The cost for the new seats will appear as a prorated charge on your next monthly statement, ensuring you only pay for active periods.
